

ART MUSEUM OF SOUTHEAST TEXAS PRESENTS THE 36TH ANNUAL

# PROTÉGÉ

## COMPETITION AND EXHIBITION 2022

AMSET invites all twelfth-grade students to enter the **2022 Protégé Competition and Exhibition**. Students preparing portfolios for admittance into art schools, or for future employment, may use this as an opportunity to develop professional skills. Entrants do not need to be enrolled in a formal art class at the time of entry. A juror will select a number of works to be exhibited; these artworks will tour the entire region.

**Eligibility:** This competition is open to all twelfth-grade students in Chambers, Hardin, Jasper, Jefferson, Liberty, Newton, Orange and Tyler counties. Each student is limited to one entry. Artwork must be original to the student (no copies of posters, advertisements or master artists' work without proper credit).

Two-dimensional work must be no larger than 30" x 30" and submitted unmatte and unframed. If 2-D work is larger than 24"x 28," it must be ready to frame (such as a stretched canvas). Charcoals or pastels must be sealed with fixative to prevent smudging. Three-dimensional work must be able to withstand multiple location moves and cannot be larger than 46" x 32" x 32."

Workshops are on Tues., February 22nd at 4:00 p.m. and on Wed., February 23rd at 4:00 p.m. The cost to the student is \$20 to defray a portion of the cost of the frame, mat, glass etc. (which becomes the property of the artist after the exhibition). Under no circumstances may any artwork be removed from the exhibit, prior to May 1, 2022.

**Juror:** Kurt Dyrhaug is a Distinguished Faculty Research Fellow and a professor of Sculpture, 3D Design, and 3D Printing at Lamar University. Dyrhaug earned his Master of Fine Arts degree from the University of Minnesota (1993) and his Bachelor of Fine Arts degree from the Minneapolis College of Art and Design (1989). Kurt Dyrhaug is originally from St. Paul, Minnesota, but his recent sculptures and drawings include agricultural, nautical and industrial imagery filled with mechanical forms often found in the Southeast Texas landscape.
